

## Bible & Science - Creation

### Origin of the Earth

#### What the Bible Says

All creation was made by God in six days (Gen 1:1-31).

Everything that has come into being was made by Jesus Christ.

John 1:2-3

Colossians 1:16

The \_\_\_\_\_ of creation rules out any naturalistic, evolutionary explanation.

#### Age of the earth, according to the Bible

#### What Evolutionists Say

#### Failures of Evolutionary Theory

Evolution defies the Second Law of Thermodynamics.

Evolution has no mechanism for the introduction of new

\_\_\_\_\_.

One of the fundamental assumptions of evolutionary theory is

\_\_\_\_\_.

#### Scientific Evidences of a Young Earth

Ocean salinity

Comets

Atmospheric helium

Decay of earth's magnetic field

Radiocarbon in coal, natural gas, and diamonds

Radiocarbon in Fossils

Radiocarbon in Fossils and Coal

Sea floor sediment accumulation

Land mass erosion

Excess Fluid Pressure

*Interestingly, Peter addresses uniformitarianism in one of his letters, and he refutes it (2 Peter 3:3-7).*

#### Supposed Difficulties for a Young Earth

Starlight –

<https://answersingenesis.org/astronomy/starlight/what-about-distant-starlight-models/>

Fossil record – to be addressed next week.

Radioisotope dating –

Observed micro-evolution –

#### Food for Thought

- Creation was not \_\_\_\_\_ by any human. The only eyewitness record is that of \_\_\_\_\_.
- There is abundant evidence today that Darwin's theory of macro-evolution as a mechanism to explain life is \_\_\_\_\_.
- There is abundant scientific evidence that the earth is young and that it was designed and created by an intelligent God.
